Wellness Screening

Add Years To
Your Pet's Life

Preventative Screening Today,
Healthy Pet Tomorrow!

Visit us at
www.animalsdr.com

Annual Wellness Testing allows our doctors to identify conditions and diseases in your pet before signs may be evident. Additionally, screening tests provide information on what’s “normal” for your pet, and allows your doctor to quickly evaluate changes in your pets health.

WHY TEST ANNUALLY?

Pets age roughly 5-7 times faster than humans. It's vital to test every year to screen for diseases and conditions.

IS IT EXPENSIVE?

Our annual wellness bundles are extremely affordable. We are working with an outside laboratory to keep testing packages inexpensive. Speak with a team member to learn more.

HOW WILL IT SAVE ME MONEY?

By testing, your doctor will be able to identify critical patterns in your pet’s biological make-up. Ultimately, early detection will enable an accurate diagnosis more quickly, potentially saving you thousands of dollars in tests and critical care.

HOW CAN IT SAVE MY PET’S LIFE?

Your doctor will be able to spot signs of kidney disease, liver failure, diabetes and much more — long before there are any symptoms. With early (pre-symptom) disease treatment, your pet could live a longer, healthier life.

PET HEALTH DIAGNOSTIC GROUPS

LIFE STAGES	TEST COMPONENTS
 Young Adult Dogs 1-3 yrs of age	Wellness Exam, 4Dx or Heartworm Test, and Fecal yearly. Pre-surgical panel prior to any anesthetic procedure.
 Middle Age Dogs 3-7 yrs of age	Wellness Exam, 4Dx or Heartworm Test, and Fecal yearly. Pre-surgical panel prior to any anesthetic procedure.
 Senior Dogs 7+ yrs of age	Chemistry Panel with Complete Blood Count (CBC), Urinalysis & Fecal
 Young Adult Cats 1-3 yrs of age	Wellness Exam, FeLV/FIV test* & Fecal
 Middle Age Cats 3-7 yrs of age	Wellness Exam, FeLV/FIV test* & Fecal
